

Start-up Companies

[Commercialisation clad controller - M2i, Demcon Advanced Products](#)

Knowledge valorization for M2i's industrial partners

[Implementation of the recrystallization texture model into industrial codes](#)

[– Corus/Aleris](#)

[DLC Coatings on plastics - Hauzer Techno Coating](#)

[Using a stress based transformation model for metastable steels - Philips](#)

[Blistering of protecting coatings for ships - Damen Schelde Naval](#)

[Shipbuilding](#)

[Fabrication of super hydrophobic surfaces – FUJIFILM & Lightmotif](#)

[Numerical simulation techniques for wheel rim rolling processes –](#)

[Fontijne Grotnes](#)

[Corrosion double wall structures – Damen Schelde Naval Shipbuilding](#)

[Extrusion-die design for enhanced weld seam performance - Nedal](#)

[Full Length Pipe Expander - Fontijne Grotnes](#)

[Numerical simulation of springback after rubber pad forming - Stork](#)

[Forming to crash, Process simulation of DAF bumper - DAF](#)

[Implementation of an optimization routine OPTFORM - Corus](#)

[Process controller laser cladding - Stork Gears & Services](#)

[Implementation coating technologies – DAF Trucks](#)

[Improvement of adhesion – NXP](#)

[Detection of Hydrogen Source in Bearing Steels - SKF](#)

[Bake hardening - Corus](#)

[Improvement of adhesion between lead frame and package – NXP](#)

[Forming process shaver heads – Philips DAP](#)

[Dimensional Changes - SKF](#)

[Stretch forming - Fokker](#)

[Implementation OSP removal procedure – NXP](#)

[Collision resistant side walls - Schelde](#)

[Improved extrusion speed - Boal](#)

[Springback compensation - Inpro](#)

[Oleophobic coating for ball bearing applications - SKF](#)

[Weld test of cost reduction welder loader - Fontijne Grotnes](#)

[Structure formation during solidification of aluminium](#)

[immiscible alloys - Corus/Aleris](#)

[Fatigue behaviour of weldseams in extruded profiles - Nedal](#)

[Nitrocoat - Hauzer](#)

[Thermal loss reduction in DAF exhaust system using an isolating coating - DAF Trucks](#)

[Fire information system load bearing structures for offices - Bouwen met Staal](#)

Knowledge valorization for SMEs

[Course on deep drawing simulations](#)

[Workshops on Hydroforming](#)

[Workshops on Laser welding technology](#)

[Technical Infosheets](#)

[Laser Event 2009](#)

[Workshop laser welding](#)

Flying Squad

[Pipe straightening support – Fontijne Grotnes](#)

Facility sharing

- List of facilities that can be made available to interested parties.
