

We enable
materials innovation.

Bert van Haastrecht

Organizing parties

Organize innovative materials research to solve societal and economical challenges.

Stimulate and intensify academic research and development of new materials

Bond voor Materialenkennis

Disseminating knowledge of processing and application of materials

Themes for today

Themes for today

- National agenda materials

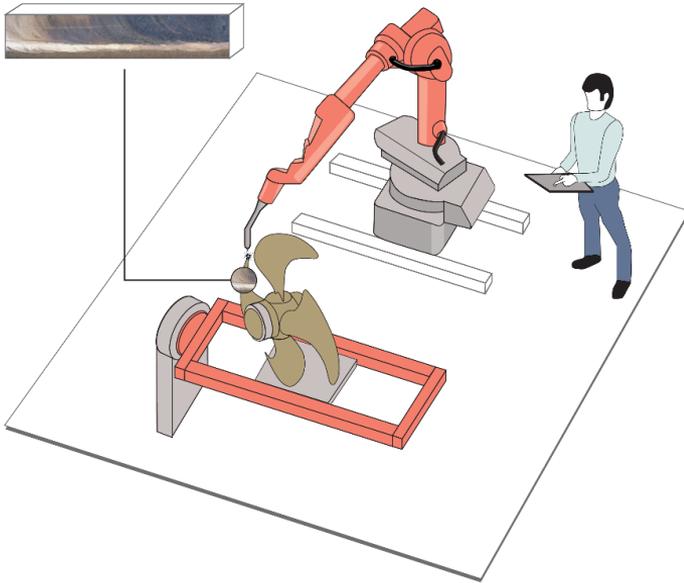

Sessions:

- Durability & Reliability of Structures
- Tribology
- Additive Manufacturing & Metals
- **Qualify**
- Materials for Energy

Special topic:

- **PRIZE Design Contest Grade2XL**

PRIZE Design Contest

Criteria:

1. Novelty
2. Functionally graded
3. Suitability
4. Impact

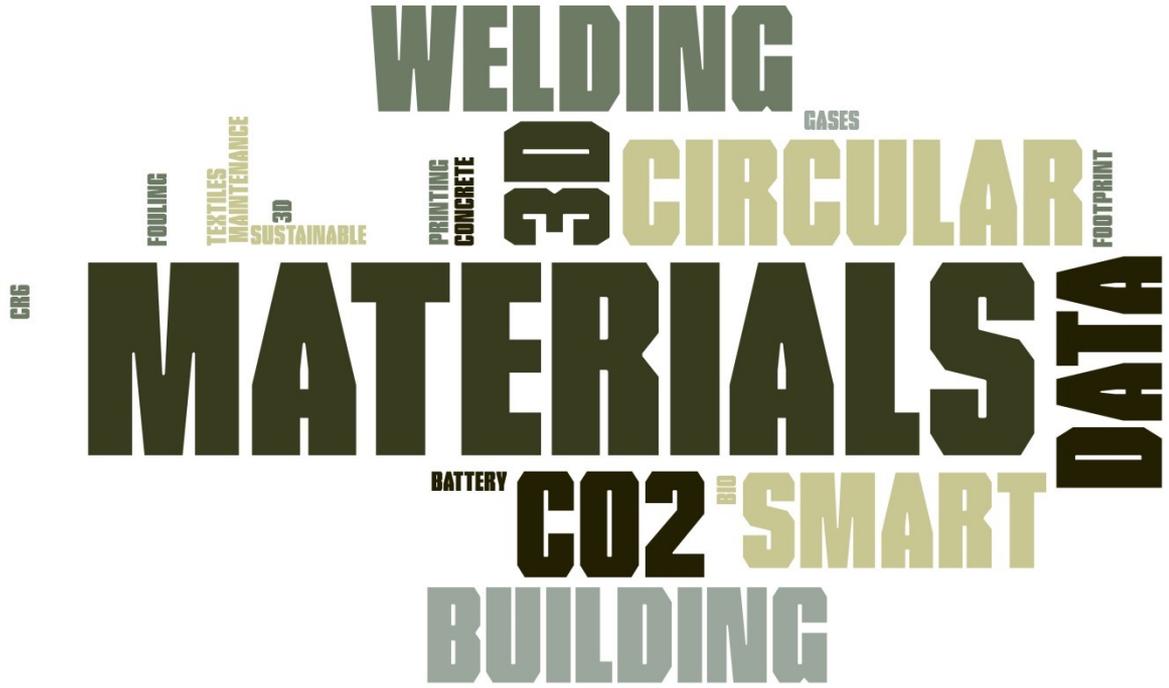

Wire Arc Additive Manufacturing

Let's join forces

We enable materials innovation

Together we can
Let us join forces to
achieve materials
innovations

Save the Date!

M2i Conference 2021

13 & 14 December 2021

Scientific infrastructure for Materials

NWO institute DIFFER expresses the ambition to realize a large infrastructure at DIFFER with the focus on: research on materials for the energy transition.

December 15th, 15.00 h.

MS-Teams Meeting to present the ideas and pick up and consider your ideas, system requirements and suggestions.

DIFFER
Dutch Institute for
Fundamental Energy Research

Thank you
